

EAGLE REGISTRY

WELCOME

This is the **eighth EAGLE Newsletter**. With this, we hope to keep you updated on progression of the registry, any planned EAGLE events and important messages.

STUDY STATUS

We are proud to announce we just past the **100 EAGLE inclusions milestone!**

Although last weeks were relatively slow we are confident inclusions will start picking up in the coming months. Some patients are treated without being regarded as outside IFU, but are eligible for EAGLE. So to improve inclusions, be vigilant and make sure you become one of the **top-includers!**

We are always looking for investigators to **co-author** future manuscripts.

Recently **dr. Büscher** and his team from Gelre Hospital in the Netherlands have joined the EAGLE group. We would like to welcome him and his team from the **Gelre Hospital**.

PATIENT ENROLLMENT

Patients can be enrolled in the EAGLE Registry **up to the day of the procedure**. So if you have a possible candidate please **call** or **e-mail** us. When the procedure is completed we will assist you with gathering the required documentation to complete inclusion.

REMINDERS AND CLARIFICATIONS

Please check your private page on **www.eagleregistry.com** for the status of collected data. If categories are orange or red please don't hesitate to contact us for further information.

As soon as we have the complete **1-year data** we can include your patients in the next payment round.

If you have had **staff changes** or aspects of the EAGLE Registry are unclear, contact us. We would gladly provide you with additional information, **pocket cards** or posters.

CTA REVIEW

If you have doubts about a possible candidate, send your **CTA for review** to:

EAGLE Registry
Department of Surgery
Catharina Hospital
P.O. Box 1350
5602 ZA Eindhoven
The Netherlands

If you prefer to share a CTA **digitally**, contact us for the possibilities.
